

NEWPORT BRASS®

Flawless Beauty. From Faucet to Finish.™

NEW ADJUSTABLE HAND SHOWER BRACKET!

Newport Brass is proud to announce that we have enhanced the functionality of the hand shower bracket used on our shower slide bar products. The bracket is now adjustable; allowing the hand shower to pivot up or down so water can be directed to desired areas of the body without removing the hand shower from the cradle.

The ergonomically designed handle provides ease of use and allows the height of the hand shower to be adjusted, accommodating the needs of any family member. Available in 26 unique finishes, the solid brass cradle is equipped with a polymer protective sleeve which prevents scratching and denting of the slide bar when in use.

Engineered and designed for durability, the Newport Brass Slide Bar will provide your family with a luxurious shower experience and years of care-free use.
