- Thermostatic temperature control valve enables effortless temperature accuracy.
- Maximum temperature override button for convenience and safety.
- Valve technology protects against sudden changes in temperature or water pressure.
- Integrated volume control diverter allows for directed, variable water flow.
- Operate multiple devices simultaneously including showerheads, handheld showers, body sprays, tub spouts and a variety of other applications (I-743 valve).
- Provides up to 8.75 gallons per minute (GPM) at 45 psi (I-742 valve).
- Trim sets to match all Newport Brass collections including traditional, transitional and contemporary design styles.
