

NEWPORT BRASS

PARDEES KITCHEN COLLECTION

ADORNED WITH PRECISION

Sleek in form yet rich in character, the Pardees Collection expands one of Newport Brass's most latest bath designs into the kitchen, balancing modern minimalism with tactile expression.

Defined by its iconic tall coining and sculptural restraint, Pardees introduces a jewelry-like quality, elevating the kitchen through detail, texture, and precision.

Crafted in solid brass, each piece reflects a commitment to enduring materials and thoughtful design, bringing elegance, warmth, and permanence to the heart of the home.

INSPIRATION

The Pardees Collection expresses a contemporary elegance informed by fine jewelry. Graceful in its curves, precise in its detailing, and defined by its distinctive coining, Pardees expresses a refined, cohesive design language, bringing sculptural elegance to the kitchen.

Drawing inspiration from Persia, the name Pardees evokes sacred gardens and cultivated beauty, an enduring expression of balance, intention, and timeless adornment translated into form.

CRAFTSMANSHIP

From the bend of the spout to the tall, precision-cut coining that defines the silhouette, Pardees is a celebration of Newport Brass's dedication to artisan craftsmanship in solid brass. Each ridged edge is executed in-house, adding tactile rhythm and visual depth while maintaining the collection's clean, contemporary profile.

Solid brass construction delivers lasting strength, refined weight, and enduring performance at every touchpoint.

SHOWN IN: POLISHED GOLD PVD (24)

Iconic tall coining adds a jewelry-like detail to a sleek contemporary form.

SHOWN IN: SATIN NICKEL PVD (15)
