

## ARCHITECTURE IN BRASS

The Kimbell Collection introduces a bold new expression to the Newport Brass bath portfolio, offering a complete, architecturally driven bath suite defined by structure, proportion, and material integrity. Grounded in industrial influence and executed in solid brass, Kimbell balances weight, precision, and restraint, creating a contemporary aesthetic shaped by permanence and purpose.

From lavatory faucets and shower trims to bidets and coordinated accessories, Kimbell offers a comprehensive solution that brings cohesion, clarity, and enduring beauty to the bath.

## INSPIRATION

Architectural and industrial in spirit, the Kimbell Collection was developed with a deliberate sense of mass and structure, embracing a weightier body while maintaining a refined, contemporary feel. Smooth cylindrical forms are paired with finely knurled detailing, creating a quiet interplay of texture that celebrates structure, proportion, and the way light reveals form.

## CRAFTSMANSHIP

Rooted in solid brass and shaped through disciplined craftsmanship, Kimbell reflects Newport Brass's commitment to material honesty and precision. In-house knurling at our California manufacturing workshop brings tactile depth and architectural clarity to each piece, while the natural weight of brass delivers a sense of permanence felt at first touch.

A complete bath collection, from lavatory faucets to trims and bidets, designed to carry a cohesive design language throughout the space.

SHOWN IN: POLISHED NICKEL NATURAL (15)

Industrial-contemporary in character, refined in execution, and balanced for timeless appeal.

SHOWN IN: VENETIAN BRONZE (v8)

Offered with lever or cross handles, each thoughtfully proportioned to complement Kimbell's architectural form and industrial character.

SHOWN IN: POLISHED NICKEL NATURAL (15)

Crafted entirely from solid brass, Kimbell delivers a reassuring weight in the hand and enduring performance designed to age beautifully over time.
