FINISH OFFERINGS

Design at Newport Brass begins with solid brass, an enduring material revered for its strength, beauty, and timeless form. With a choice of 22 hand-applied finishes across all collections, each piece becomes part of a home's personal story. From the warm glow of brass, copper, and bronze to the cool luster of nickel, chrome, and steel, our broad palette and meticulous craftsmanship bring character, and personality to every fixture.

Surfaces are brought to life through a range of refined techniques. Because we work exclusively in brass, we're able to offer a living finish that evolves naturally, deepening in patina over time. For a look rich with dimension, our antique finish is skillfully buffed to reveal its refined, hand-crafted character. When a sleek, uniform appearance is desired, powder coating, plating, or PVD create a finish of enduring brilliance and precision.

LEGACY REFINED

FOR MODERN LIVING

NEWPORT BRASS

FOUNDED IN 1989 IN NEWPORT BEACH, CALIFORNIA, NEWPORT BRASS EMERGED FROM A SIMPLE BELIEF: THAT THE OBJECTS WE LIVE WITH SHOULD BE AS ENDURING AS THEY ARE BEAUTIFUL. ROOTED IN THE QUIET ELEGANCE OF COASTAL LIVING, OUR ORIGIN CONTINUES TO INFORM OUR SENSIBILITY—WHERE AMERICAN CRAFTSMANSHIP MEETS TIMELESS DESIGN, AND WHERE REFINEMENT IS NEVER MISTAKEN FOR EXCESS. THAT SPIRIT OF BALANCE—BETWEEN HERITAGE AND MODERNITY, RESTRAINT AND PRESENCE—REMAINS AT THE CORE OF EVERYTHING WE CREATE.

OUR PRODUCTS ARE MORE THAN FUNCTIONAL COMPONENTS; THEY ARE SCULPTURAL STATEMENTS DESIGNED TO ANCHOR A SPACE. EACH ONE IS CAST IN SOLID BRASS, ENGINEERED WITH PRECISION, AND FINISHED BY HAND—INTENDED NOT JUST TO SHINE TODAY, BUT TO REMAIN RELEVANT FOR GENERATIONS. WE BELIEVE PERMANENCE IS A VIRTUE, AND THAT TRUE LUXURY REVEALS ITSELF IN DETAILS: THE WEIGHT OF A HANDLE, THE ARC OF A SPOUT.

INSPIRED BY CLASSIC AMERICAN ARCHITECTURE AND THE CLARITY OF MODERN FORM, OUR DESIGN LANGUAGE BLENDS EAST COAST TRADITION WITH WEST COAST EASE. IT'S A PHILOSOPHY THAT VALUES LONGEVITY OVER TREND, CHARACTER OVER COMPLICATION. WE STAND FOR CRAFTSMANSHIP THAT ENDURES—QUIETLY RESISTING THE DISPOSABLE, AND PRESERVING THE BEAUTY OF THINGS MADE WELL.

NEWPORT BRASS IS FOR THOSE WHO VIEW THE HOME AS A REFLECTION OF VALUES, NOT JUST AESTHETICS. FOR DESIGNERS AND HOMEOWNERS WHO SEEK PIECES WITH PROVENANCE AND PURPOSE—FIXTURES THAT LIVE SEAMLESSLY BETWEEN PAST AND PRESENT, DESIGNED TO STAND THE TEST OF TIME BOTH STYLISTICALLY AND STRUCTURALLY. REFINED, ARCHITECTURAL, AND CRAFTED WITH INTENTION, NEWPORT BRASS EXISTS NOT TO FOLLOW TRENDS, BUT TO HELP SHAPE A LASTING SENSE OF PLACE.

Newport Brass speaks to the enduring spirit of East Coast design – where history, architecture, and craftsmanship carry a quiet gravitas. Our fixtures honor that sensibility through forms that balance tradition with clarity, echoing the character of coastal shingle homes, brownstones, and landmark interiors shaped over generations.

Crafted in solid brass and finished with meticulous care, each piece reflects a commitment to permanence and the belief that true luxury lives in proportion, detail, and restraint. For those who value heritage as much as innovation, Newport Brass offers fixtures that anchor a home with lasting purpose and a sense of considered refinement.

EAST COAST

TRADITION

WEST COAST

Newport Brass was born on the West Coast, shaped by the light, ease, and understated elegance of coastal California living. Our design philosophy reflects that origin – open, modern, and effortlessly refined, with forms that honor simplicity without sacrificing substance. Crafted in solid brass and made to endure, our fixtures express a balance of precision and warmth, echoing the architecture and relaxed sophistication of the Pacific. For those who value spaces that feel calm, intentional, and quietly luxurious, Newport Brass offers pieces designed to live seamlessly across generations – rooted in quality, guided by clarity, and made to elevate everyday living with quiet confidence.

EASE

Handmade in solid brass, our kitchen faucets bring enduring beauty, function, and character to the spaces where daily life unfolds. From modern forms to traditional silhouettes, our signature collections invite personal expression, with every style available in all 22 of our hand-applied finishes. Thoughtfully crafted and meticulously detailed, each piece reflects the artistry and material integrity at the heart of our timeless design philosophy.

A considered range of configurations ensures the right solution for every environment. Pull-downs, bridge styles, single-hole and three-hole designs, along with dedicated prep and bar faucets allow every detail to be shaped with intention. Pot fillers, water dispensers, and refined accessories complete the composition creating a luxurious kitchen aesthetic that elevates daily rhythms and endures for generations.

1/2" GENERAL GUIDELINES FOR PLANNING AND LAYOUT

1/2" thermostatic valve will provide automatic temperature control and adequate water flow to operate multiple devices. The temperature control feature is independent of the integrated transfer valve.

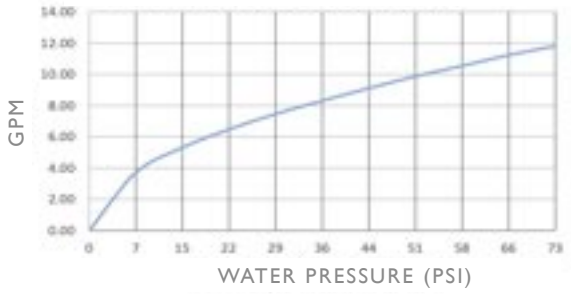

The sum total of water consumption of the combined shower outlets must not exceed the rated gallons perminute (gpm) of the thermostatic valve (see flow charts below, as measured from the top outlet, mixed hot & cold).

3/4" GENERAL GUIDELINES FOR PLANNING AND LAYOUT

1) **Valve**—3/4" thermostatic valve. This valve will provide automatic temperature control and adequate water flow to operate multiple devices. The temperature control feature is not only a convenience but a safety consideration as well.

2) **Shower Outlets**—The sum total of water consumption of the combined shower outlets must not exceed the rated gallons per minute (gpm) of the thermostatic valve (see flow chart below).

3) Exceeding the capacity of the valve will result in the reduction of the overall performance of the shower. Since water pressure directly facilitates optimum performance, Newport Brass recommends a minimum of 50 pounds per square inch (psi) for 3 or more outlets.

NOTE: In the case of a well/pump system, flow and pressure capacity may not accommodate a multi-component shower installation. Please consult a licensed plumber to ensure the supply you're working with is adequate.

4) **Removing flow restrictions** from showerheads or body sprays will upset the balance and the capacity of the valve and is a violation of national code.

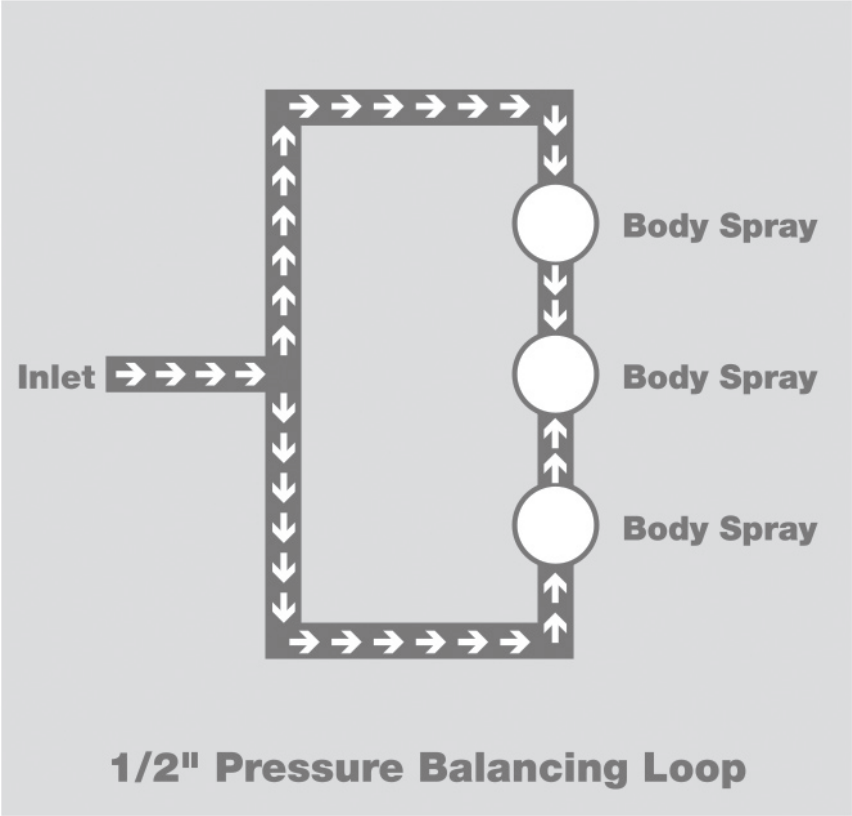

5) When using more outlets than one thermostatic valve can accommodate, we recommend that 2 or more valves be used. If this is the case, Newport Brass suggests that the main water supply be 1" or larger.

6) Some plumbers 'tee' from one set of hot and cold supplies to accommodate more than one valve. This practice is not recommended. This situation requires that each valve be plumbed directly from the main water supply. It should be noted that the use of a 'tee' could cause fluctuations in temperature and water flow.

7) **Volume Controls**—Most custom showers are designed with separate on/off volume controls for each outlet device. As with the other outlet devices, the volume controls also have their own flow rates. Newport Brass suggests using 3/4" volume control valves. Where cost is concerned 1/2" volume controls can be used, however, a reduction in the flow rate will result.

8) **Body Sprays**—It is recommended that a 1/2" pressure-balancing loop be plumbed for 2 or more body sprays. This technique will allow equal flow rates and temperature to each body spray. Please refer to diagram below.

NOTE: Pressure-Balance Loop should be used on each shower bar installed.

Tank Lever for commonly used toilets (8" arm). Front mount Solid Brass. May be used with Devonshire toilets.

Newport Brass fittings are crafted from solid brass, chosen for its weight, strength, and lasting integrity. This commitment to material is felt in every detail—from the reassuring substance in hand to the quiet confidence of performance over time. Brass is not a surface treatment here; it is the foundation, shaping both the character and longevity of every piece.

Refined through careful machining and finishing, each fitting carries the presence of thoughtful craftsmanship. The result is hardware that does more than complete a space—it anchors it, bringing durability, precision, and a sense of permanence to kitchens and baths designed to endure.
