A PALETTE FOR
ELEVATED EXPRESSION

Design at Newport Brass begins with solid brass, an enduring material revered for its strength, beauty, and timeless form. With a choice of 22 hand-applied finishes across all collections, each piece becomes part of a home's personal story. From the warm glow of brass, copper, and bronze to the cool luster of nickel, chrome, and steel, our broad palette and meticulous craftsmanship bring character, and personality to every fixture.

Surfaces are brought to life through a range of refined techniques. Because we work exclusively in brass, we're able to offer a living finish that evolves naturally, deepening in patina over time. For a look rich with dimension, our antique finishes are hand-buffed to reveal the beauty of the maker's touch. When a sleek, uniform appearance is desired, powder coating, plating, or PVD create a finish of enduring brilliance and precision.
